Hello!

I graduated with a Bachelor's degree in Arts and Technology from UT Dallas, with a concentration in Animation and Games. I have always been passionate about creating art, especially in 3D modeling and texturing. I find my true calling in bringing environments to life, and I am continuously working to expand and improve my skills in the 3D space. I am an agile and detail-oriented individual with a creative mindset. My professional experience as a graphic designer in printing design and production has allowed me to effectively enhance clients' needs. I am skilled in producing layouts for printed and digital formats, as well as designing UI for websites.
